Short Description
With a Yamaha F115XB Outboard and Bunk Trailer

Description
The 2026 Stingray 182SC is a smart, stylish and versatile deck boat designed for boaters who want easy handling, comfortable seating and plenty of fun on the water without stepping up to a larger model. With its efficient hull design, the 182SC is built to deliver lively performance, smooth cruising and confident control, whether you are heading out for a relaxed family day, towing water toys, or anchoring in a quiet cove for a swim. Its open layout makes excellent use of space, offering sociable seating, convenient storage and practical features that suit both first-time buyers and experienced boat owners. For example, a morning trip could begin with a gentle cruise across the lake, continue with the kids enjoying a towable ride, and end with everyone gathered on board for snacks and sunshine. Compact enough to be manageable yet roomy enough for memorable outings, the 2026 Stingray 182SC is an appealing choice for anyone seeking an approachable, fun and well-rounded boat for everyday adventures.

This Stingray comes with a Yamaha F115XB outboard engine and an EZ Loader bunk trailer.
