Dimensions: 20.30ft x 0.00ft x 0.00ft

Price: $0.00

Description
The 2027 Stingray 20 SBX is expected to appeal to boaters who want a confident, easy-to-handle runabout with the comfort to turn an ordinary weekend into a proper day out on the water; picture a family setting off after breakfast, stowing their kit neatly, stretching out in the open bow, and enjoying everything from relaxed cruising to tow sports in one versatile package.
• **Sporty all-round design:** The 20 SBX is typically positioned as a compact bowrider with a lively feel, making it suitable for lakes, rivers and coastal cruising in fair conditions.
• **Family-friendly layout:** Expect practical seating, accessible storage and a sociable cockpit that works well for passengers who want comfort without needing a larger boat.
• **Watersports potential:** With the right engine and equipment, it can be a great choice for tubing, wakeboarding or simply enjoying a spirited cruise.
• **Easy ownership appeal:** Its size should make launching, docking, storing and towing more manageable than many bigger day boats.
• **Modern finishing touches:** Depending on specification, buyers may find contemporary upholstery, useful helm features and optional upgrades that add convenience and style.
• **Worth checking before purchase:** As final 2027 specifications, engine options, pricing and availability may vary, it is best to confirm details with an authorised Stingray dealer before making a decision.
