Dimensions: 20.40ft x 0.00ft x 0.00ft

Price: \$0.00

Description

The 2027 Hewescraft Pro V 180 is best viewed as a rugged aluminium fishing boat designed for anglers who want confidence, usable space and straightforward practicality in changing conditions. Picture an early start at the slipway: rods loaded, tackle stowed, coffee in hand, and a boat ready for everything from calm family cruising to a focused day chasing fish. Key points to consider include:

- **Purpose-built fishing layout:** the Pro V 180 is likely to appeal to boaters who value open deck space, easy movement and practical storage for rods, nets and gear.
- **Durable aluminium construction:** Hewescraft boats are known for tough, no-nonsense builds suited to demanding freshwater and coastal use.
- **Versatile performance:** its 18-foot class makes it a manageable choice for towing, launching and handling, while still offering useful stability on the water.
- **Comfort for longer trips:** look for seating, wind protection and helm features that help make full days afloat more enjoyable.
- **Ideal buyer:** a keen angler, active family or adventure-minded boater wanting a dependable fishing platform without unnecessary fuss.
