Description

The used 2005 Stingray 195LX is a smart choice for boaters seeking a versatile bowrider that blends sporty performance, comfortable seating and easy handling in one stylish package. At around 19 feet, this model is well suited to family days on the water, relaxed cruising, towing a tube, or anchoring up for a swim with friends. Stingray boats are known for their efficient hull designs, and the 195LX offers a lively, responsive ride that makes it enjoyable for both newer and more experienced boaters. On board, the open bow layout provides sociable seating, while the cockpit is practical enough for weekend adventures, watersports gear and those all-important cool drinks. As with any used boat, condition, service history, engine hours and trailer quality are key details to review, but a well-maintained 2005 Stingray 195LX can deliver excellent value and plenty of fun on the water without the cost of a newer model.
